PROFESSIONAL SUMMARY

Junior Full Stack Developer and 2025 B.E. graduate with practical experience in MERN stack application development and Java Full Stack training. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, SQL, Java, and REST APIs. Familiar with building responsive interfaces, developing backend routes, implementing CRUD operations, and debugging application issues. Seeking to contribute to end-to-end software development and business-focused applications.

TECHNICAL SKILLS

Programming: Java, JavaScript, SQL
Frontend: HTML5, CSS3, React.js
Backend & APIs: Node.js, Express.js, Spring Boot, REST APIs, MVC
Full Stack: MERN Stack, Java Full Stack
Databases: MongoDB, MySQL
Core Concepts: OOP, Data Structures & Algorithms, CRUD Operations
Tools: Git, GitHub, Postman, VS Code, Eclipse IDE, Spring Tool Suite, MySQL Workbench

PROFESSIONAL EXPERIENCE

Full Stack Developer (Probationary) | ProJenius Innovation Technology Pvt. Ltd., Madurai August 2026 – October 2026

- Contributed to web application development using MongoDB, Express.js, React.js, and Node.js.
- Built responsive, reusable React.js components and integrated frontend features with RESTful APIs.
- Worked on backend routes, middleware, and data validation using Node.js and Express.js.
- Used MongoDB schemas, CRUD operations, and queries to support application features.
- Collaborated with team members on debugging, code reviews, and Git/GitHub-based version control.

PROJECTS

1. IoT Website & Admin Management System | React.js, Node.js, Express.js, MongoDB

- Contributed to the development of a responsive IoT website using React.js, JavaScript, HTML, and CSS.
- Developed dynamic website sections for courses, blogs, pricing plans, and project lab content.
- Worked on admin dashboard features for managing courses, blogs, pricing tables, and website content.
- Integrated frontend components with backend REST APIs using Node.js and Express.js.
- Worked with MongoDB and Mongoose for database management and content operations.
- Implemented admin and staff authentication workflows and role-based access control.

2. 3D Printing E-Commerce Website & Admin Dashboard | React.js, Node.js, Express.js, MongoDB

- Contributed to developing a responsive 3D printing business website with a modern user interface.
- Worked on product management features and dynamic website content.
- Developed admin dashboard functionality for managing website information and product-related data.
- Integrated frontend and backend functionality using REST APIs.
- Worked on MongoDB schemas, API routes, authentication, and backend integration.
- Worked on e-commerce functionality involving products, cart, checkout, and order management.

EDUCATION

B.E. – Electronics & Communication Engineering | Karpagam College of Engineering, Coimbatore
2021 – 2025 | CGPA: 8.29/10

INTERNSHIP & TRAINING

Java Full Stack Development | SLA Institute, Chennai June 2025 – November 2025

- Completed structured training in Java, Spring Boot, REST APIs, HTML/CSS, MySQL, and full-stack application development.

Web Development Intern | MAT-G TECH, Hosur August 2022 – September 2022

- Completed a virtual internship focused on web development and participated in product development tasks.

CERTIFICATIONS & SOFT SKILLS

Java Full Stack Development (Grade A) – SLA Institute, Chennai | November 2025
Internet of Things (NPTEL) | January–April 2024
HackerRank – Problem Solving & Coding Challenges
Soft Skills: Communication, teamwork and collaboration, adaptability, problem-solving, critical thinking
